Te Pūkenga

Rise to the challenge

Delivered over one year, this programme is designed to help you develop a solid background of general bakery knowledge.

Study is based on bakery techniques research, and its culinary specialities. Formal work experience in industry is also an important part of the programme, building professional relationships and connections to employers.

The EIT | Te Pūkenga School of Tourism and Hospitality baking programme is essentially hands-on training. You will be taken out of the classroom and into the real-world environment of a local commercial bakery kitchen and shops.

In our bakery training environment you will work as an effective member of the team and learn to communicate clearly with customers and your colleagues. Having consulted with industry when developing this programme an EIT | Te Pūkenga baking graduate should be well positioned and equipped for finding work in this field.

You are welcome to make an appointment to discuss your study options with our staff and to view our facilities.

Career and study opportunities

With a worldwide shortage of skilled people in the industry, graduates may take their place in the workforce, progress to further industry-based training or progress onto the NZ Diploma in Cookery (Advanced) (Level 5) - Pâtisserie strand.

Partnerships

Our lecturers are highly trained professionals with particular areas of expertise in culinary arts and, food and beverage service. The staff maintains contact with other professionals through organisations such as HCIMA (Hotel and Catering Industry Management Association), RANZ (Restaurant Association of New Zealand), HANZ (Hospitality Association of New Zealand), Ringa Hora (Services) Workforce Development Council, NZCA (New Zealand Chefs Association) and, CFANZ (Cookery and Food Association of New Zealand).

We value our partnership with students and aim to provide quality education in a supportive environment, encouraging personal growth and professional development.

Industry-based training

For the NZ Certificate in Baking (Generalist) (Level 4) there will be 50 hours of compulsory work experience. This will be embedded in course CB4.13 Proficiency in Baking Industry Skills. In addition, one pop-up bakery will be undertaken each semester. These staged shops will be set up to present and sell the vast range of breads and pastries produced by you and will provide you with an opportunity to work as a team in a brigade system, interact with customers and gain basic bakery business skills.
