The Certificate in Contemporary NZ Nursing Practice programme enables graduates to achieve the Nursing Council competencies as defined by the Nursing Council of New Zealand by giving each student guidance and support while studying. In particular, the programme is designed to:

- Enable graduates to enter practice with a sound knowledge base of nursing theory, health studies, social sciences, biological sciences, research and professional practice skills.
- Balance theoretical and nursing practice experiences throughout the programme giving graduates the choice of a wide range of health care settings for practice experiences which comprise seventy percent of the programme.

Theoretical components of the programme will be delivered at the EIT, Hawke's Bay campus over a two week period.

Clinical components of the programme will take place at Hawke's Bay Hospital, Hastings, or other approved health care institutions over a four week period. There is no guarantee of a DHB placement. You are responsible for your own accommodation and transport while on clinical placement. Extra clinical time may be required depending on the student's ability to achieve Nursing Council Competencies.

To complete the Certificate in Contemporary New Zealand Nursing Practice programme the student will be required to:

- Undertake full shifts possibly including weekends and nights, i.e. shifts between the hours of 0700 - 1530 hours or 1430 – 2300 hours or 2245 - 0715 hours. (These times may vary).
- Travel to EIT and clinical placements. Please Note: Any travel or accommodation expenses that are incurred will be the responsibility of the student.

The first practicum experience is scheduled to occur in week three of the programme, so students will be required to have purchased their uniforms prior to commencement of the programme. Further information about uniform requirements will be available after your acceptance onto the programme.

By completion of these courses the registered nurse-student will demonstrate selected competencies for nursing practice as stated in Nursing Council of New Zealand domains of competencies for the registered nurse scope of practice (2005).

In this application pack you will find information about the programme, descriptions for each of the subjects covered, and fees and costs associated with this programme.

You are welcome to make an appointment to discuss your study options with our staff and to view our facilities.

If you require any further assistance or information at any time please do not hesitate to contact our staff.

1. The information about me that NZ Police may consider relevant to my application and release in vetting comprises any conviction history and, for certain agencies, infringement/demerit reports; and it may include other information such as active charges and warrants to arrest, any information received or obtained by NZ Police, and any interaction I have had with NZ Police in any context (including family violence), even where I have not been charged, or charges are withdrawn, or I have been acquitted (not guilty) of a charge, or I have been discharged without conviction.

2. Any conviction history will be released in accordance with the Criminal Records (Clean Slate) Act 2004; this means that, if I am ‘eligible’ for clean slate (e.g. no convictions for 7 years, never been to prison, no convictions for specified sexual offending, etc – see section 7 of the Act):
   a) my criminal record of convictions will not be disclosed; but
   b) if the role for which I have applied is an exception to the clean slate scheme (e.g. predominantly involving care and protection of a child or young person), my criminal record of convictions will be disclosed.

3. When releasing information to non-government Approved Agencies, Police may release the fact, without details, that suppressed information exists in relation to any conviction and, where NZ Police considers it relevant and justified, in relation to any current or past charge however it was resolved (e.g. withdrawn, discharged, acquitted).

4. Where NZ Police holds relevant information that it is unwilling to disclose to the Approved Agency for privacy, confidentiality or law enforcement reasons, NZ Police may recommend against unsupervised access to children or vulnerable persons (this is known as a ‘red stamp’).

5. The personal information I provide in this form is being collected for vetting purposes, and may also be used for the purpose of updating NZ Police records.

6. I may withdraw this consent, prior to Police’s disclosure of the vetting result, by notifying the Approved Agency who will immediately notify NZ Police to cease the vetting process.

7. I am entitled to access the vetting result released to the Approved Agency and seek correction of Police information about me in accordance with the Privacy Act 1993. By making a request to the ‘Approved Agency’ within 20 working days of submitting this ‘Request and Consent’ form.

8. No later than three months after the conclusion of the vetting process, the Approved Agency will securely dispose of this consent form and copies of identification documents, as well as the vetting result released by NZ Police, in accordance with the Privacy Act 1993 or, if applicable, the Public Records Act 2005 or any other enactment.

9. The information I have provided in this form relates to me and is correct.

   • NZ Police to disclose the information on this form to, and access information from, other government agencies;
   • NZ Police to disclose to my employer or other relevant agency its assessment regarding my suitability (only to the extent that I am approved or not approved as suitable, without reasons).

Immunisations and Serology Testing (NZ applicants)

You are required to have immunity and serology testing as part of the application process for acceptance into the programme.

You must supply the following evidence of serology and vaccination results:

- A blood test that gives results for Hepatitis B Surface Antigen and Surface Antibody within the last five years. You need this even if you have been immunised against Hepatitis B.

- Evidence of having received two vaccinations of MMR. If you are unable to supply evidence of two vaccinations of MMR you will need to provide evidence of your immunity to morbilli (measles) rubella and mumps.

- You must provide evidence of having had a Pertussis (whooping cough) vaccination within the last five years. If you cannot provide the evidence you will need a vaccination against Pertussis.

- You must provide evidence of having had immunity or a vaccination to Varicella (chicken pox). If you do not have evidence of having had Varicella. If you are reasonably certain you had Varicella as a child we recommend you having the blood test first prior to having the vaccine.

- You must complete the attached Tuberculosis questionnaire form.

If you have any concerns or questions with these requirements please do not hesitate to contact the programme secretary, Sue Jackson, phone 06 830 1521 or email sjackson@eit.ac.nz
