

For NZ Citizens and  
Permanent Residents

# Master of Nursing

## Nurse Practitioner

EIT's Master of Nursing programme will enhance your nursing knowledge, skills in critical analysis, constructive synthesis, along with advanced practice and research within your specialty area, particularly in preparation for advanced practice roles.

The qualification has been specifically designed to prepare nurses for advanced practice roles as Nurse Practitioners and is approved by the Nursing Council of New Zealand as a "masters with a clinical focus, including the content for preparation for nurse prescribing".

We recommend that you take the opportunity to discuss study options with the Head of School prior to enrolment, to help ensure that you select the most appropriate nursing pathway to meet your career goals. For nurses considering the Nurse Practitioner pathway, the Nursing Council of New Zealand requires that you complete specific courses.

Campus	The postgraduate nursing courses are offered either online, or with blended delivery. This flexible delivery method allows you to study at your pace, in your place, at locations throughout New Zealand.
Starts	Start dates vary depending on courses selected, however 30 credit courses are semesterised and commence in either February or July each year.
Length	Three to six years
Contact	Stacey Wong   Phone: 06 830 1507   Email: <a href="mailto:swong@eit.ac.nz">swong@eit.ac.nz</a>

# Rewarding study for a rewarding career

The Master of Nursing degree is a 240 credit (three to six years), applied clinically-focused programme characterised by advanced study in nursing.

You will develop advanced nursing knowledge, skills of critical analysis, constructive synthesis, advanced practice and research within your specialty area.

The Master of Nursing is awarded upon successful completion of four courses from the programme schedule plus MN9.490 Masterate Research Thesis, or MNSC9.001 Critical Inquiry for Nursing Practice and MNSC9.002 Research Project, followed by MN8.427 Advanced Practice for Nurse Practitioners.

For nurses intending to apply for Nurse Practitioner registration, the following courses must be included in the schedule of study.

- ▶ MN8.401 Advanced Clinical Assessment and Diagnostic Reasoning
- ▶ MN8.402 Advanced Pathophysiology for Health Professionals
- ▶ MN8.409 Pharmacotherapeutics for Advanced Nursing/Midwifery Practice
- ▶ MN8.424 Registered Nurse Prescribing Practicum
- ▶ MN8.427 Advanced Practice for Nurse Practitioner

It is recognised that those undertaking this programme are often engaged in full-time clinical practice and study part-time.

Where there is a clinical practice component to the learning, you need to be employed in a clinical setting.

This programme is accredited by the Nursing Council of New Zealand for the Nurse Practitioner pathway.

We recommend that you take the opportunity to discuss your study options with the School of Nursing Postgraduate Programmes Coordinator, prior to enrolment, to help ensure that you select the most appropriate pathway to meet your career goals.

Contact Lizzy Mackenzie on 06 830 1950 or email [emackenzie@eit.ac.nz](mailto:emackenzie@eit.ac.nz) to discuss.

In this application pack you will find information about the programme, descriptions for each of the subjects covered, and fees and costs associated with this programme.

## YOUR FUTURE CAREER AND STUDY OPPORTUNITIES

The Master of Nursing programme is specifically designed to prepare nurses for advanced practice roles as Nurse Practitioners. You will be supported to extend your knowledge and advanced practice skills in order to enhance your capacity to improve patient outcome and health services.

**Career opportunities / advanced practice roles may include:** nurse practitioner, nurse consultant, nurse educator, clinical leader, clinical nurse specialist, clinical charge nurse, case manager / case coordinator, health services manager or nurse researcher.

## WHAT YOU NEED TO KNOW

### Master of Nursing

Level	Levels 8 - 9	Credits	240 (180 at Level 8 and 60 at Level 9) The Master of Nursing is awarded upon successful completion of four courses from the programme schedule, plus MN9.490 Masterate Research Thesis or MNSC9.001 Critical Inquiry for Nursing Practice and MNSC9.002 Research Project, followed by MN8.427 Advanced Practice for Nurse Practitioners (Level 8, 60 credits).
Length	Three to six years	Fee*	\$1,900 approximately per 30 credit course

\* This is a guide only based on the previous year. All costs quoted include GST and student services levy. Fees apply to New Zealand citizens and New Zealand permanent residents only.

## WORK-INTEGRATED LEARNING

Some courses will require you to be actively involved in clinical practice in the area of specialty.

### 2022 KEY DATES

INTAKE ONE		INTAKE TWO	
Programme starts	Monday, 14 February	Programme starts	Monday, 18 July
EIT SEMESTER HOLIDAYS		YEAR ENDS	
15 April - 29 April	24 June - 15 July	3 October - 14 October	Friday, 25 November

## EXPERIENCED LECTURERS

You can be confident in the quality of our teaching and your learning experience at EIT.

EIT is one of the top ITPs in New Zealand for research excellence due to the quality of our community centred research, and associated publications and level of government and external grant income. This means that your lecturers use the latest knowledge and research in their field of expertise to inform their teaching, and many are at the forefront of knowledge creation within their discipline area.

Education is facilitated by lecturers with advanced academic qualifications and specific clinical expertise. We value our partnership with students and provide high quality education in a supportive environment, encouraging personal growth and professional development.

## BLENDED / ONLINE LEARNING

All the postgraduate courses are offered either online or with blended delivery. This means that the majority of the work is located on a virtual teaching and learning platform with directed activities and learning that you work through. Lecturers work within the virtual classroom setting so that they maintain contact with students as much as if they were in a face-to-face classroom setting.

Blended delivery means that there are on-campus contact sessions or workshops with the bulk of the learning activity undertaken in the online environment.

Various teaching modes are used, such as virtual classroom discussions at predetermined times, and also in the asynchronous format.

This flexible delivery method allows you to study at your pace, in your place, at locations throughout New Zealand.

## WORKLOAD

Generally the courses are delivered asynchronously via online delivery. However, some courses may require attendance at synchronous online sessions or face-to-face workshops on the EIT campus. Any requirement for attendance at synchronous or face-to-face sessions is identified in the course information.

**Please refer to the link within the enrolment pack letter for the programme timetable, showing full year and semester dates, and compulsory study days or contact Stacey Wong, the Postgraduate Programmes Secretary on 06 830 1507.**

Each credit for the course represents 10 hours of student learning/study time over the period of the course.

You are expected to spend subsequent time in independent/self-directed study, critical reflection, and work-integrated learning in your place of study or work.

## ADDITIONAL COSTS

- ▶ \$150 - \$200 approximately per course for textbooks (book lists will be available after enrolment).

## ENTRY CRITERIA

An interview may be part of the application process where required or appropriate.

The academic entry requirement for the Master of Nursing is one of the following:

- ▶ Completion of the HB3963 Postgraduate Diploma in Health Science (Registered Nurse Prescribing endorsement) with a B average or higher; or
- ▶ A postgraduate nursing qualification deemed equivalent to the HB3963 Postgraduate Diploma in Health Science (Registered Nurse Prescribing endorsement) with a B average or higher.

Where the applicant's undergraduate degree does not provide the basis of study at the level required for more advanced study, enrolment in transitional or undergraduate courses may be required before the applicant can be admitted.

### Special Conditions

Applicants must provide evidence of a current annual practising certificate with the Nursing Council of New Zealand.

For those considering the Nurse Practitioner pathway, please seek guidance in regard to course choices before enrolling. You may contact Lizzy Mackenzie on 06 830 1920 or email [emackenzie@eit.ac.nz](mailto:emackenzie@eit.ac.nz).

Some courses require students to be actively working in the specialty area of practice.

## ENGLISH LANGUAGE ENTRY REQUIREMENT

Applicants from countries in which English is not the primary spoken language must demonstrate an acceptable level of English language fluency prior to acceptance in the programme. Ways in which English language fluency may be demonstrated include (i) completion of a programme of study in which English was the language of instruction (conditions apply\*), and (ii) approved scores on IELTS tests, namely an Academic score of 6.5 with no band lower than 6 (or accepted international equivalents).

\*See NZQA English language entry requirements for international students at <https://www.nzqa.govt.nz/providers-partners/qa-system-for-teos/english-international-students/>

## ENTRY WITH CREDIT

Applicants may be admitted with credit transfer or recognition of prior learning. The Postgraduate Programmes Cluster Committee has discretion in the granting of academic credit.

Academic credit may be awarded as specified credit where there is a substantial match between previous learning and the course for which academic credit is sought; or unspecified credit where the learning is broadly relevant to, and at an equivalent level to, the course for which academic credit is sought.

Credit granted shall not be for course(s) completed as part of an undergraduate degree, nor shall credit be granted that exceeds one-half of the total programme credits.

A Recognition of Prior Learning (RPL)/entry with credit application pack is available on enrolment. It is recommended that applications for RPL/entry with credit are made as part of your initial application. This will assist in our academic advisement to you regarding your programme of study and course selection. However, entry with credit cannot be processed until you are enrolled.

For further information please contact Stacey Wong, Postgraduate Programmes Secretary on 06 830 1507.

## FACILITIES

All the usual facilities for tertiary learning institutions are available – including Library services offering access to databases, a range of professional journals, relevant text books, inter loan services, and other resources. Learning Services such as professional Learning Advisors and other student support are also offered on campus and online.

## ASSESSMENTS

Assessments are focused on the outcomes of the course and may include assignments, seminar presentations, journaling exercises, recorded exercises, exams and practical demonstration of skills.

## THE EXPERIENCE YOU NEED & THE SUPPORT TO SUCCEED

When you study at EIT you'll get the kind of experiences that will help you gain the knowledge and skills to get ahead.

You'll also be supported by lecturers and tutors who are here for you, within a learning environment where you are treated as an individual, not just a number. They'll know your name and you'll receive one-on-one attention to make sure you get the support to succeed.

# HOW TO ENROL

There is an easy 3-step process to follow when enrolling at EIT.

## STEP 1

Check out the programmes online to see the programmes available for you to study. A copy of the course information for each programme is available online.

## STEP 2

You can now use your RealMe verified identity to apply for study at EIT. If you use your RealMe verified identity you will no longer be sent a copy of your application form to sign. You also will not need to provide us with a copy of your primary ID.

If you apply online without using RealMe then you will be sent a summary of your enrolment to check and sign. It will also include course selection forms which you need to complete and return. Your enrolment cannot progress until you have sent the summary and forms back to us.

You can also apply using a paper enrolment form. Please call us on **0800 22 55 348** and we will send you one out.

You will receive an acceptance letter from your Faculty with programme information. This will include the start date of your

study and any special information regarding your programme. Depending on your chosen programme of study, you may be invited to attend an interview before you are accepted.

## STEP 3

Arrangement for full payment of enrolment fees must be made before the start of your programme. You will receive an invoice with payment details.

**Fees-Free government scheme:** Tertiary education is fees-free for eligible domestic tertiary students. To check if you are eligible, go to **FeesFree.govt.nz** and enter your National Student Number (NSN). If you are not eligible you will be responsible for paying your fees.

**Scholarships and grants:** Scholarships and grants make life easier by helping to cover your fees, other costs and living expenses while you study. You don't always need to be an academic high-flyer to qualify. You can find out more about scholarships and other options for paying your fees at **eit.ac.nz**.

**StudyLink:** If you need to pay for your own study you can choose to apply for your Student Loan and Student Allowance with StudyLink. You should do this early, even if you haven't yet been accepted on your programme. You can change your details later if anything changes. Visit **studylink.govt.nz** to find out more about StudyLink.

## STUDENT SERVICES LEVY

The Student Services Levy is a compulsory non-tuition fee that is charged to students enrolled at EIT. The levy is to contribute to the provision of quality student services that support learning. The funds received by EIT from the levy are ring-fenced, meaning they can only be spent on student services.

## STUDENT LOANS AND ALLOWANCES

StudyLink is a service of the Ministry of Social Development. Apply well before your programme begins (even if you haven't been accepted yet) so you'll be ready to get your payments when you need them most.

Check out what you qualify for at **studylink.govt.nz**.

& THE SUPPORT TO SUCCEED

EASTERN INSTITUTE OF TECHNOLOGY

## COURSE DESCRIPTIONS

Courses are offered subject to sufficient numbers enrolling and staff availability.

Please check with the Postgraduate Programmes Secretary for latest details of the programme timetable and compulsory study days.

COURSE NO. & MODE OF DELIVERY	BRIEF DESCRIPTION	NO. OF CREDITS	NZQA LEVEL
<b>MN8.401</b> Online delivery with compulsory block course	<p><b>Advanced Clinical Assessment and Diagnostic Reasoning</b></p> <p>This course begins with an overview of comprehensive health assessment and diagnostic reasoning within the context of current trends in expanding and advanced practice.</p> <p>Students will critically appraise their own understanding of anatomy, physiology and pathophysiology required to develop advanced skills in interviewing, physical examination and diagnostic reasoning to identify knowledge deficits and learning needs.</p> <p>Skills, approaches and strategies for health assessment and diagnostic reasoning will be further enhanced. Students will be required to engage in significant independent learning and fieldwork. Students will undertake a range of activities to demonstrate advanced clinical assessment skills, critical thinking and the application of diagnostic reasoning strategies.</p> <p><i>Students are required to attend a two-day workshop.</i></p>	30	8
<b>MN8.402</b> Online delivery	<p><b>Advanced Pathophysiology for Health Professionals</b></p> <p>This course builds upon undergraduate study and the knowledge embedded in practice. The course will explore complex adult and child disease processes in order to support advanced diagnostic reasoning and therapeutic interventions for these client groups. This course assumes knowledge of normal physiological function and directs the student towards a progressive and more critical understanding of altered, complex health states.</p>	30	8
<b>MN8.409</b> Blended delivery with one on-campus study day (attendance voluntary)	<p><b>Pharmacotherapeutics for Advanced Nursing / Midwifery Practice</b></p> <p>This course aims to allow the student to develop a conceptual understanding of pharmacology and therapeutics by building a foundation of knowledge of pharmacodynamics and pharmacokinetics. This knowledge will underpin critical analysis of the impact of life stages and disease states on drug therapy and will be complemented by an understanding of drug safety issues.</p>	30	8
<b>MN8.424</b> Online delivery with compulsory block course	<p><b>Registered Nurse Prescribing Practicum</b></p> <p>This course represents the final praxis requirement for registered nurses (RN) who are seeking endorsement as a 'designated prescriber - registered nurse' with the Nursing Council of New Zealand. RNs are required to work with a nominated designated authorized prescriber (DAP) who will be their prescribing mentor, within a collaborative health care environment, for the duration of the course.</p>	30	8
<b>MN8.427</b> Online delivery with compulsory block course	<p><b>Advanced Practice for Nurse Practitioner</b></p> <p>This course further develops the practitioner's advanced knowledge and skills within the individual's specialty area. With clinical and academic mentorship, practitioners will demonstrate competencies consistent with an advanced practitioner role: leadership; consultancy; involvement in local and national health and socio-economic policy; research; interdisciplinary collaboration; and expert and expanded clinical practice including advanced assessment, differential diagnosis, treatment and evaluation.</p>	60	8
<b>MNSC9.001</b> Online delivery with compulsory block course	<p><b>Critical Inquiry for Nursing Practice</b></p> <p>The aim of this course is to build on students' existing knowledge and skills of scholarly enquiry, equipping them for research at an advanced level to inform their practice. Students will develop the skills required to critically appraise literature related to a specific research area. They will explore the philosophical and ethical underpinnings of different research paradigms. They will be supported to identify and formulate a research questions and the selection of an appropriate research methodology and design in preparation for their research project.</p>	30	9
<b>MNSC9.002</b> Online delivery with compulsory block course	<p><b>Research Project</b></p> <p>The aim of this course is to provide the student with the guidance and support s/he requires to independently conduct a research study relevant to the discipline of nursing, as identified in MNSC9.001.</p> <p>The course is based on each student's individual research project, as agreed between the student and her/his supervisor. Each student will submit a written research report and present her/his research at a research forum.</p>	30	9
<b>MN9.490</b> Online delivery with compulsory block course	<p><b>Masterate Research Thesis</b></p> <p>This course critically examines the philosophical, methodological and ethical issues that underpin research. The intent is to establish a sound foundation for the student's developing knowledge and understanding of the nature and application of research. The aim will be to support the student in identifying and formulating research questions and, the selection of appropriate research methodology and design in preparation for Masterate Thesis research.</p> <p>A range of current research methods will be explored in terms of the design, data collection and relevant analytic issues. This will include construction and use of measurement tools and the collection, analysis and interpretation of quantitative data and qualitative research approaches to study human phenomena.</p> <p>The student is required to carry out a piece of scholarly work which demonstrates a high degree of skill in data collection, analysis, critical evaluation and effective oral and written communication (NZQA, 2000, p23).</p>	90	9

## MASTER OF NURSING

### IMPORTANT - PLEASE NOTE

We urge you to enrol as soon as possible, but no later than:

- ▶ **Monday, 17 January 2022** for 2022 full year or first semester courses

and

- ▶ **Monday, 20 June 2022** for second semester courses.

In the past people have delayed enrolling or re-enrolling and have subsequently missed out on being able to enrol in their chosen course/s because it has either been full or has been cancelled due to low enrolments.

By enrolling early it allows us to manage this and if necessary, offer you suitable alternative options for you to consider in a timely manner.

Any applications after closing date will only be considered if vacancies still exist within your chosen course.

All efforts will be made in the first instance to enrol you into your chosen courses.

Te Kura Kaupapa Tapuhi  
*School of Nursing*

## MASTER OF NURSING

### POSTGRADUATE NURSING AND HEALTH SCIENCE PROGRAMMES 2022 (HAWKE'S BAY CAMPUS)

Please find enclosed enrolment information for our postgraduate courses offered in 2022. The following website link will take you to the programme timetable, showing in which semester each course is offered, and whether there are any compulsory on-campus study days that are applicable:

► 2022 Timetable: <http://myeit.eit.ac.nz/Documents/PGNTimetable2022.pdf>

The majority of courses are offered in an online delivery mode, meaning there will be no requirement for you to physically attend an on-campus class. Other courses are available through flexible (blended/online) delivery, meaning that some of the courses do require you to attend on-campus workshops. Unless specified, on-campus face-to-face classes are held at the EIT Hawke's Bay Campus, Taradale, and the rest of your learning is carried out online. You will be notified of dates and venues prior to the commencement of your course.

Please note, for your study purposes, each 30 credit course requires 56 contact hours (i.e. equivalent to eight study days of release time). Registered nurse applicants are strongly advised to refer to their local DHB postgraduate funding coordinator, should they require information about Health Workforce postgraduate nursing education funding.

For those of you who are new to online study, we will be offering an "Orientation to Online Learning", which will be held online. Participation is highly recommended. Please note that enrolling in a postgraduate course with an online component assumes that you have at least some basic computer knowledge and skills. The Orientation involves a combination of self-directed activities and various zoom sessions. You will be notified of dates and further details prior to the start of the semester.

Please refer to the previous page for enrolment close-off dates.

**Applying for Academic Credit:** There is a separate application and fee for this.

**New Students:** It may be possible for us to consider credit of previous formal postgraduate study from another institution, or some Recognition of Prior Learning. Please request an application pack from us.

**EIT Returning Students:** If you have previously completed a postgraduate health science qualification at EIT and are progressing onto further study after a period of five years or more, you may wish to apply for credit. We recommend that you do this at time of enrolment into the new programme. Please request an application pack from us.

Existing EIT students who have progressed onto further study after a break of fewer than five years are not required to apply.

If you have any queries, please do not hesitate to contact Stacey Wong, Postgraduate Programmes Secretary on 06 8301507, or email [swong@eit.ac.nz](mailto:swong@eit.ac.nz).

## MASTER OF NURSING ENROLMENT INFORMATION FORM 2022

Applicant's Name: .....

Address: .....

..... Email: .....

Telephone (Home): ..... (Work): .....

Professional Qualification: .....

Academic Qualification: .....

Current Role: .....

**Please enclose the following required documentation with this enrolment form. An incomplete application will delay the enrolment process.**

### CHECKLIST ✓

#### All enrolments:

- EIT Enrolment Form or Re-enrolment Form (with these forms attached)
- Course selection form
- Evidence of your current Annual Practising Certificate, or your Nursing Council of New Zealand Registration number and expiry date: .....
- Postgraduate Programmes Student Learning Plan

#### PLUS:

Include the following, if this is your first enrolment into a **postgraduate** programme at EIT:

- \*Witnessed copy of Academic Record(s) for relevant qualifications, showing grades for all courses
- \*Witnessed copy of birth certificate or passport
- \*Witnessed copy of deed poll certificate or marriage certificate (if applicable)
- Curriculum Vitae

*\*A verified/witnessed copy is a copy that has been signed by a Justice of the Peace, Court Registrar or EIT Faculty/Registry administration staff member. This person must have seen the original document.*

You will be notified by email confirming your enrolment acceptance.

**Intention to apply for Cross Credit/Recognition of Prior Learning or Credit Transfer**

You will need to obtain an application form to apply for Cross Credit/RPL or Credit Transfer once you have enrolled in your first semester. For RPL, you will need to provide a portfolio of evidence demonstrating currency in the area. For Cross Credit, you will need to provide a certified copy of your transcript, and a copy of the learning outcomes, for each course requiring cross credit. If you wish us to consider Credit Transfer of courses previously studied at EIT, and these were completed more than five years ago, you will need to make a formal application.

Please indicate the courses/papers you intend to make an application for:

Topic/Paper/Course/Experience	Credit Value	Institution/Source

**Motivation to Study at EIT**
