

MASTER / POSTGRADUATE DIPLOMA / POSTGRADUATE CERTIFICATE IN LOGISTICS AND SUPPLY CHAIN MANAGEMENT 2024

Information for international applicants

Napier, Auckland and Online¹

Advance your knowledge and capability to meet the future needs of the national and global logistics and supply chain industry. The postgraduate programme suite in logistics and supply chain management will prepare and upskill students for success in the industry.

Designed to challenge students to critically assess logistics and supply chain systems, the courses also aim to provide advanced theoretical and technical skills in logistics and supply chain management.

The suite of programmes are designed to meet a range of student backgrounds, and to prepare graduates for different entry points and roles within the industry.

immigration.govt.nz

1. Students must be outside New Zealand to study online programmes.

2. All fees shown in this information are in New Zealand dollars and include Goods and Services Tax (GST) at current rates. If you need to study for more than one year to complete your qualification, your fees in the second year, and subsequent years, will not be known when you first enrol.

MASTER OF LOGISTICS AND SUPPLY CHAIN MANAGEMENT

The Master of Logistics and Supply Chain Management is a Level 9 programme of either 180 credits or 240 credits at Levels 8 and 9 with at least 45 credits at Level 9, completed by coursework and industry integrated or applied research. It enables those who have completed a bachelor degree in business, or similar, to achieve a postgraduate level qualification in the logistics and supply chain management area.

The programme can be completed in 18 months full-time or up to six years part-time for the 180 credit Masters or two years full-time or up to six years part-time for the 240 credit Masters.

Progressing on from the Postgraduate Diploma, this programme seeks to develop students' ability to:

- Build on existing knowledge and skills of good practice and professionalism within the industry.
- Develop a management perspective of strategic management principles and processes in an entrepreneurial context.
- Develop the knowledge and skills necessary to manage and develop organisations in the contemporary networked, globalised and constantly evolving business environment.
- Develop advanced knowledge and skills in designing, managing and improving international logistics and supply chain management networks.

Coursework

A broad range of courses are offered from which students can select courses to further develop their professional knowledge and skills.

Industry Integrated

This programme is tailored to meet both students' and their organisation's development requirements.

Research

This programme allows students to undertake a significant applied research project to further develop research skills and applied knowledge.

The three pathways emphasise the application of knowledge to provide you with the opportunity to apply knowledge in the workplace and to focus on an aspect of management through completion of a range of applied research projects.

You can pathway into a Postgraduate Diploma or Master of Logistics and Supply Chain Management by completing a Postgraduate Certificate in one of the following specialist areas:

- Business Analytics
- Logistics and Supply Chain Management

POSTGRADUATE DIPLOMA IN LOGISTICS AND SUPPLY CHAIN MANAGEMENT

The Postgraduate Diploma in Logistics and Supply Chain Management is a Level 8 programme of 120 credits at Levels 7 and 8, with at least 75 credits at Level 8, which enables those who have completed a bachelor degree in business or similar to achieve a postgraduate level qualification in the logistics and supply chain management area.

Those who wish to progress from the Postgraduate Diploma to the Masters will need to complete eight courses (120 credits) at Level 8.

The programme can be completed in one year full-time or up to four years part-time, depending on your previous study and experience and specific course preferences. It can act as an entry point into the masters degree if you do not initially meet the entry requirement and need to demonstrate your ability to study at a postgraduate level. Alternatively, if you initially enrolled in the masters degree and are not in a position to complete it, you can transfer any applicable courses to the postgraduate diploma for the purposes of qualification completion.

The postgraduate diploma enables employment of advancing conceptual and theoretical knowledge for application within the field of logistics and supply chain management. The programme aims to produce graduates able to lead and develop effective strategies and operations management to optimise logistics and supply chain aspects of a business on a national and global basis. This would include warehouse planning, transport and distribution processes across logistics and supply chain networks..

POSTGRADUATE CERTIFICATE IN LOGISTICS AND SUPPLY CHAIN MANAGEMENT

The Postgraduate Certificate in Logistics and Supply Chain Management is a Level 8 programme of 60 credits, which enables those who have completed a bachelor degree in business, or similar, to achieve a postgraduate level qualification in the logistics and supply chain management area.

The programme can be completed in six months full-time or up to two years part-time. It can act as an entry point into the Master's degree for those who don't initially meet the entry requirements, and need to demonstrate their ability to study at postgraduate level. It also provides an exit qualification if you have enrolled in the master's degree and, for some reason, are unable to complete the degree.

In this application pack you will find information about this programme, descriptions for each of the subjects covered and the related fees and costs.

(60 Credits)

Master degree - coursework, research or industry integrated pathway
(180 Credits)

Master's degree
(240 credits)

1. Restrictions apply based on EIT programme eligibility criteria. Students must be outside New Zealand to study online programmes. EIT programmes are approved by the New Zealand Qualifications Authority (NZQA), however students are advised to check that qualifications awarded via online delivery are recognised in the jurisdiction they intend to use them in. To study onshore in New Zealand, students must meet current Immigration New Zealand requirements for a student visa. For more information please see the [Immigration New Zealand website](#).

2. Logistics and Supply Chain Management specific courses are prefixed by LSCP as listed in this information sheet under Course Descriptions.

ACADEMIC ENTRY REQUIREMENTS

Master of Logistics and Supply Chain Management (180 Credits)

An undergraduate degree in business or management with a minimum of a B average.

Where the candidate's undergraduate degree does not provide the basis of study at the level required for more advanced study, they will be required to enrol in the Postgraduate Diploma in Logistics and Supply Chain Management before continuing to master degree level (180 credits). Alternatively, candidates can apply for the two year Masters (240 credit) if they meet the entry criteria for this programme.

Master of Logistics and Supply Chain Management (240 Credits)

- An undergraduate degree or graduate diploma.
- Other graduate qualifications and industry experience may be considered. Please contact the International Centre for further information: international@eit.ac.nz

Postgraduate Diploma in Logistics and Supply Chain Management

An undergraduate degree in the logistics and supply chain field.

Postgraduate Certificate in Logistics and Supply Chain Management

An undergraduate degree in the logistics and supply chain field.

ENGLISH LANGUAGE ENTRY REQUIREMENTS

PTE (Academic) score of 58 with no band score lower than 50 or IELTS (Academic) score of 6.5 with no band score lower than 6.0 (or equivalent) achieved within the last two years.

TIMETABLE

Your study time will be made up of contact time (class times, tutorials, industry-based learning) and non-contact time (your own individual study time, online learning).

CONTACT TIME

Postgraduate courses are taught through blended delivery on-campus in New Zealand or fully online to online offshore enrolled students. Blended means part of the course will be communicated and completed online; with the rest consisting of self-directed activities, field work, and on-campus workshops. For each 15 credit course, students are expected to attend approximately four hours of classes and workshops per week.

Level 9 courses are principally supervised independent study. The Capstone course includes face-to-face and simulation components.

Elective courses from other EIT schools may be delivered using a different modality. You should consult the appropriate school's Postgraduate Handbook and course timetable.

NON-CONTACT TIME

You should plan to spend 15 hours of individual study per 15 credit course per week.

ONLINE STUDY REQUIREMENTS

For online study, you must have the following available to be able to utilise the online learning environment and have access to industry:

- Desktop or laptop computer or other appropriate electronic device not older than five years
- Reliable broadband internet connection
- Software as required

When you study online at EIT, you enter your course through the EIT Online website. After logging in, you can access your course materials such as readings, learning activities and assessments. Online communication tools such as discussion forums and chat let you interact with your teacher and classmates.

You will be supported in how to do this and receive relevant training for specific software. Many students find that online learning offers them the flexibility to study when, where and how they want.

ASSESSMENTS

All Level 8 and Level 9 course work assessments are marked internally. Assessments consist of assignments, tests, practical demonstrations, presentations, projects and case studies.

Assessments for supervised courses with a credit value of 30 credits or more are independently examined.

It is EIT policy to independently moderate all assignments and assessments.

FACILITIES

EIT's Napier and Auckland campuses offer pleasant environments for study which emphasise small class sizes in a range of general purpose rooms all with data show equipment. In the state-of-the-art Information Technology Complex at the Napier campus there are networked computer laboratories with student stations in each. There are also specific labs for software development, hardware, multimedia and a room for computer study.

THE EXPERIENCE YOU NEED & THE SUPPORT TO SUCCEED

When you study at EIT you'll get the kind of experiences that will help you gain the knowledge and skills to get ahead.

You'll also be supported by lecturers and tutors who are here for you, within a learning environment where you are treated as an individual, not just a number. They'll know your name and you'll receive one-on-one attention to make sure you get the support to succeed.

COURSE DESCRIPTIONS

NB: Courses may be delivered by lecturers who are based at either our Auckland or Napier campuses. Courses are offered subject to sufficient enrolments being received. Courses may differ depending on selected campus.

In the following descriptions:

P= Pre-requisite – courses which must be studied before C= Co-requisite – courses which can be studied before or at the same time

Level 8 Courses

COURSE NO.	BRIEF DESCRIPTION	LEVEL	CREDITS
LSCPG8.100	Inventory and Warehouse Management This course enables students to develop advanced knowledge and skills to optimise inventory and warehouse planning, management and performance for enterprises in logistics and supply chain networks.	8	15
LSCPG8.200	Transportation and Distribution Management This course enables students to develop advanced knowledge and skills to optimize transportation and distribution processes and procedures in logistics and supply chain networks.	8	15
